made in America

No Drilling

Bolts to existing rooftop handrail points. No modifications needed.

Complete Kit

Bracket, all hardware, and parts kit included. Nothing else to order.

3 Configurations

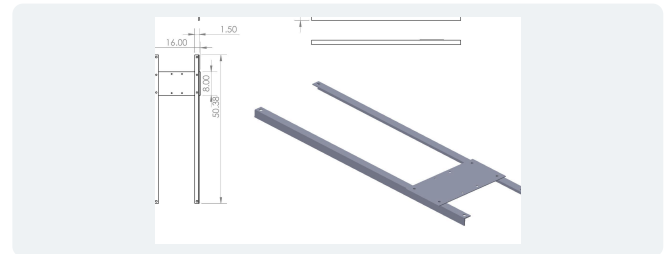

Available for EZ3-KPZ, MLN, and FMC CCAP setups on D8T Dozers.

WHAT THE MOUNTING BRACKET DOES

The EcoPro CCAP Pressurizer is one of the most effective ways to protect operators from dust, silica, and airborne contaminants in heavy equipment cabs. Until now, mounting one on a Caterpillar D8T Dozer required custom fabrication. The EcoPro Mounting Bracket eliminates that entirely.

BRACKET BENEFITS

- **Bolt-On, No Drilling**
Attaches to existing D8T rooftop handrail bolt points.
- **Secure Rooftop Platform**
Stable, level base purpose-built for the CCAP unit.
- **Three Kit Configurations**
Versions for EZ3-KPZ, MLN, and FMC. Correct fit every time.
- **All Hardware Included — bracket, fasteners, and parts kit included.**
