CCAP MOUNTING BRACKET: Komatsu WA475 / WA485 Series

Side-mount bracket for installing EcoPro CCAP cab air pressurization systems on Komatsu WA475-10, WA485-10, WA475-11, and WA485-11 wheel loaders. Flush-mount design. **No hoses required.**

PART INFORMATION

Part Number	Description
MC47510	CCAP Side-Mount Bracket — Komatsu WA475-10 / WA485-10
MC47511	CCAP Side-Mount Bracket — Komatsu WA475-11 / WA485-11

INSTALLATION PROCEDURE

1. **Remove Filter & Door** — Remove the original air filter and access door from the cab. Set aside all original mounting hardware — you will reuse it during reassembly.
2. **Install Gaskets** — Press the provided gaskets firmly against the inside face of the door, sealing the perimeter. Proper gasket seating is critical to pressurizer performance — no gaps, no bypasses.
3. **Mount Bracket** — Position the bracket at the side-mount location and secure using the original hardware set aside in Step 1. Flush-mount — no standoffs or spacers required. Verify tight seating against the cab panel before proceeding.
4. **Install CCAP Unit** — Attach the CCAP pressurizer to the bracket. **No hoses are required for this configuration.** Confirm the unit is fully seated and all fasteners are tight.
5. **Verify & Inspect** — Power up the CCAP system and confirm normal pressurization operation. Visually inspect gasket seal, bracket mounting, and CCAP unit for any movement or air bypass under operating conditions.

NOTE: This bracket is designed exclusively for the CCAP side-mount configuration. Do **not** use with top-mount or hose-connected CCAP installations. If drilling into the cab panel, consult EcoPro or your Komatsu dealer before proceeding. Contact customerservice@ecoprousa.com or call (602) 820-5143 for support.

Side-mount, flush-fit design means the CCAP sits flush against the cab — **no protruding hoses, no routing complexity.** Compatible with Komatsu WA475-10, WA485-10, WA475-11, and WA485-11 wheel loaders.

COMPATIBLE MACHINES

- Komatsu WA475-10 (MC47510)
- Komatsu WA485-10 (MC47510)
- Komatsu WA475-11 (MC47511)
- Komatsu WA485-11 (MC47511)

CCAP side-mount only
