H10
LIGHT-DUTY SERIES

BRIGHT, WIDE, EASY TO MOUNT

The H10 Series Work Lights feature ultra-bright CREE LEDs and flood optics, delivering a wide, even beam for maximum visibility. Designed with universal single-bolt mounting, these lights ensure quick and hassle-free installation, making them ideal for a variety of applications.

H30

MEDIUM-DUTY HIGH-PERFORMANCE SERIES

VERSATILE SOLUTION

The H30 Work Lights offer versatile lighting solutions with 2, 4, 6, and 9 LED options, delivering 1,800 to 8,100 lumens for superior performance. Choose from work light or combo driving beam options with DRL functionality, and enhance visibility in challenging conditions with available selective yellow lenses. Built for reliability and adaptability, these lights are perfect for demanding applications.

MINING-DUTY SERIES

COST EFFECTIVE

The H50 Mining Duty Series Work Lights are designed to replace 400 to 1,000 watt halogen lights, offering a powerful lumen output of 4,000 to 9,600. Built for durability and efficiency, these lights provide superior illumination while significantly reducing energy consumption, making them ideal for demanding work environments.
