

SIMPLE // SAFE // EFFECTIVE

LED Tipper Lighting Kits

Every kit ships complete and pre-wired, and installs the same way. **The kits differ only in the flood lights included and the current they draw.** Pick the largest kit your tipper's electrical system can carry.

COMPARE THE THREE KITS

Low Power H7019A	Medium Power H7023A	High Power H7028A
25,000 LUMENS	30,000 LUMENS	36,000 LUMENS
Cab flood light 2x 6-barrel	Cab flood light 2x 9-barrel	Cab flood light 2x 9-barrel
Genset flood light 2x 6-barrel	Genset flood light 2x 6-barrel	Genset flood light 2x 9-barrel
Amps @ 12 V 19 A	Amps @ 12 V 23 A	Amps @ 12 V 28 A
Plus 1x anti-glare · 1x 12" surface light	Plus 1x anti-glare · 1x 12" surface light	Plus 1x anti-glare · 1x 12" surface light

Included in every kit, at every power level

Anti-glare light · 12" surface light · Mounting hardware · Pre-wired control box and fuse panel · Low-voltage disconnect · On/off switch

How to choose: find the amps your tipper has to spare at 12 V, then take the largest kit that fits under it. The last two digits of each part number are the amps that kit draws.

THE LIGHTS IN THESE KITS

2x 9-Barrel Flood
2x H3009F · 16,200 lm

2x 6-Barrel Flood
2x H3006F · 10,800 lm

H9204AG
Anti-Glare · 2,500 lm

H7512B
12" Surface · 1,800 lm
