

CUSTOMIZABLE UTILITY BAR

VERSITILE UTILITY BAR FOR LIGHTING + SAFETY

The Customizable Utility Bar is the ultimate solution for enhancing vehicle functionality. Designed to fit work lights and beacons, it's perfect for various applications. We recommend pairing it with the H30 Work Light and H01 Beacon for optimal performance. Each bar includes an accessory bracket and reversing alarm for added safety, with an optional Rhino Adaptor Kit available for compatibility with Rhino HD roof mounts.
