TURBO II HD PRECLEANER · ACCESSORIES

KEEP DUST OUT. PROTECT YOUR ENGINE.

Rubber Baffle for Packers & Large Loaders

BLOCKS DUST & DEBRIS

Seals the gap at the precleaner base — keeping dust and debris out of the engine compartment.

INSTALLS IN MINUTES

Fits over the inlet pipe and locks with your existing hood clamp. No extra hardware.

BUILT FOR THE JOB

Durable rubber stands up to the heat, dust, and vibration of packer and loader work.

Turbo II HD Rubber Baffle

PRODUCT SPECIFICATIONS

The Right Fit for the Hardest Jobs

- **Purpose-built** for packers and large loaders in extreme debris environments
- **Blocks dust & debris** from entering the engine compartment
- **No new hardware** — uses your existing hood clamp
- **Locating tab design** — orients and seats correctly every time
- **Universal fit** across all TURBO II HD PreCleaner models

Ask your EcoPro representative about the Rubber Baffle for your fleet.
