Turbo® IIHD Pre-Cleaner

LONGER FILTER LIFE, LONGER ENGINE LIFE, OEM APPROVED

Only purified air goes into the air filter.

The life of your air filter is directly related to the amount of contamination it must capture before it gets into your engine. Air filters can clog in environments with high levels of air born contaminants. Your best solutions to safely extending air filter life (up to 15 times) is to install an EcoPro Turbo® II PreCleaner.

Simply by installing a Turbo® PreCleaner before your air filter, up to 95% of all contaminants will be spun out of the air filter before it reaches your air filter. This results in longer air filter life, improved engine performance, and decreased maintenance costs.

Benefits

+ Rugged Metal Design
+ 3-5x Filter Life Extension
+ 80%-95% Improved Filtration
+ Protects Your Engine
+ Eliminates Micro Dust
+ Increase Engine Longevity
+ Maintenance Free

Cost Saving

+ Extends the Life of Your Filter
+ No routine maintenance required
+ Less dust enters your engine
+ The cost is a fraction of OEM bought precleaners

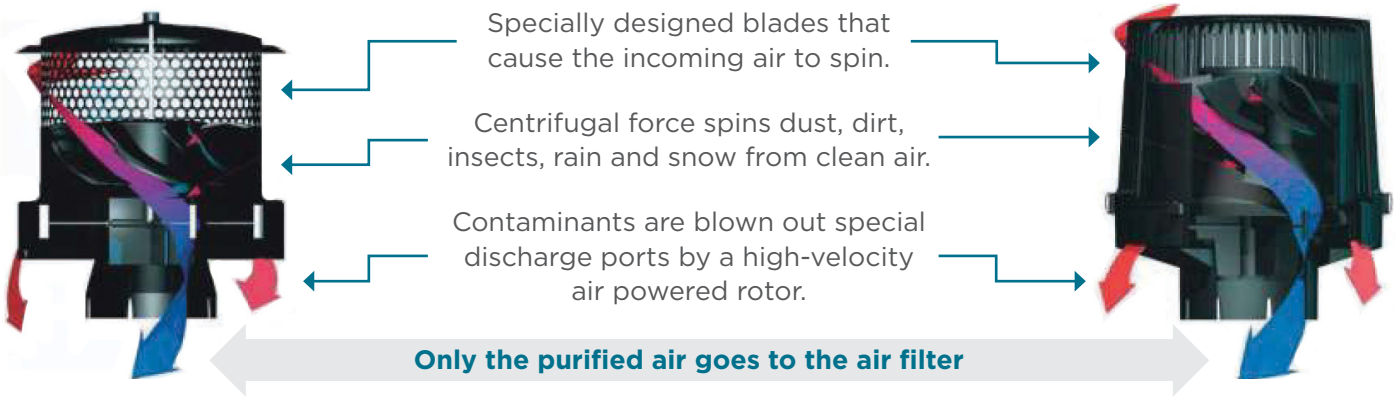
Turbo® IIHD Pre-Cleaner

LONGER FILTER LIFE, LONGER ENGINE LIFE, OEM APPROVED

How It Works



turbo® II® PreCleaner

Highest durability, tough, powder-coated steel, smooth bearings, sealed & warrantied for life. The Original. The Best.

+ Engineered metal design for durability
+ Lifetime warranty on spinner
+ 80% of 95% Contamination Removal
+ Reduces engine wear and prolongs engine life
+ Maintains effective engine breathing for maximum efficiency and power
+ Minimizes costly down time
+ Installs in minutes

Heavy Duty PreScreen

Durable metal PreScreen custom-engineered for Extreme-Duty environments to offer the ultimate protection in all environments.

+ Quadruples the surface area
+ All metal — fully washable
+ Easy to Remove / Replace / Clean
+ For Extreme Environments
+ Reduces engine wear and prolongs engine life
+ Maintains effective engine breathing for maximum efficiency and power
+ Minimizes costly down time
+ Installs in minutes
